Test results and evaluation

KOX – Partner in Forst und Garten, Oregon Tool GmbH, Lise-Meitner-Str. 4, D – 70736 Fellbach

Application field

Pulling weak wood during thinnings and firewood preparation.

Test item	Test results
Handling	Easy-grip, non-slip rubber handle. Hook and pincer geometry allow safe load pick-up.
Ergonomics	Wood can be safely picked up and pulled in an upright body position, handle position perpendicular to the tongs.
Durability	Solid, stable design, high-quality materials. Joints screwed together. No damages during testing with a test load of 1600 N.
Work safety	Limits of use must be observed for ergonomic reasons.

Design

High-strength quality steel, covered with rubber hose in the handle area. Bolted double joints.

Technical specifications

Total length (closed)	720 mm
Max. opening	267 mm
Handle length	135 mm
Handle profile	Ø 23 mm
Weight	1380 g

In the field of measurement tolerances, the KOX pre-delivery tongs 720 mm is still manufactured unchanged.
